**Agenda: Closure of Canyon Market**

A special meeting was held to discuss proposed actions regarding the shutdown of Canyon Market by the Department of Public Health due to vermin infestation.

As has been discussed in previous meetings, the ongoing problem of Chenery Street neighbor spreading large quantities of bird seed to feed pigeons has led to an increased rodent population in neighborhood businesses and residences. City agencies have been ineffective in stopping this practice in spite of extensive efforts of the Canyon Market owners to get help.

The board wrote a letter to District 8 Supervisor Raphael Mandelman, with copies to other city officials, to protest the closure and to demand immediate action.

Heather moved that the board send a letter to Supervisor Mandelman regarding the 9/28/22 closure of Canyon Market. Mary seconded. MSA Hilary emailed the letter to Mandelmen.
